Docket No. 98N-1265

Food and Drug Administration

5600 Fishers Lane

Rockville, MD. 20857

I OPPOSE THE DRAFT M.O.U. being proposed by the FDA. In particular, I OBJECT to the definition of "inordinate amount" which restricts the availability and the right to obtain medically necessary compounded medications by limiting the number of prescriptions that can be shipped across state lines from specialized compounding pharmacies.

COMMENTS: I have just recently begun taking compounded  
natural hormones to normalize my hormone levels and  
protect me from osteoporosis (of which I am at high risk).  
I tried traditional HRT with unbearable side effects  
within 24 hours, making it clear I cannot take traditional  
doseages. I need another option and so far compounded  
hormones have provided that without side effects.
